GET **UNIFIED VISIBILITY** ACROSS YOUR ENTIRE STACK

Unleash Your MSP to Operate at 10x!

The number of systems you manage has grown and many of them are going unseen, unmanaged and unsecured.

Liongard is the **only** platform that unifies your cloud, network, apps, services and endpoints in one place – giving you an **edge** over the competition.

LIONGARD CORE

UNIFY
Aggregate data from 70+ systems in a single pane of glass

AUTOMATE
Minimize manual effort required to operate and scale your MSP

ALERT
Get custom change notifications to proactively secure systems

ENDPOINT VISIBILITY

Extend Liongard's unified visibility to include deep insights into the endpoints you manage.

WINDOWS WORKSTATION INSPECTOR

Get deep visibility without the risk of admin-level permissions.

- → Patch status
- → Antivirus
- → Firewalls
- → Network diagnostics
- → Hardware inventory
- → Software inventory
- → Lenovo & Dell warranty

WINDOWS SERVER INSPECTOR

Set security standards, manage inventory, and review policies with ease.

Monitor, manage and report on:

- → Inventory
- → OS
- → Remote Desktop Protocol
- → Patches
- → Password Policies
- → User & group permissions
- → Lenovo & Dell warranty

LINUX SERVER INSPECTOR

Access critical information for Ubuntu, Red Hat, Debian and Fedora distributions.

- → Local permissions
- → Privileged users
- → Major build versions
- → Resource utilization
- → Infrastructure information
- → Services inventory
