Liongard iQ

Relentless Intelligence.
Attack Surface Mastery.

LiongardIQ delivers AI-driven Attack Surface Management that's precise, vigilant, and built to dominate complexity. With real-time visibility, compliance-aligned insights, and guided remediation, LiongardIQ transforms fragmented visibility into **proactive control** by hunting down misconfigurations, eliminating blind spots, and empowering you to act **before threats emerge.**

Relentless Intelligence: Built to scale, built to secure, built for what's next.

DISCOVER　　**PROTECT**　　**ENFORCE**　　**REMEDIATE**　　**PROVE**

"Visibility is power—knowing when something changes can mean the difference between security and disaster. Liongard gives us that edge."

Matthew Woehrle
IT Systems Administrator
Flagship Networks

FLAGSHIP

Transforming IT & Security

IT environments are sprawling, risks hide in complexity, manual processes waste time, and proving value to clients has never been harder. LiongardIQ unifies visibility, automates security, and turns operational insights into business advantage.

1　Secure The Attack Surface
Cross-stack, continuous, AI-assisted visibility into every identity, device, and system, uncovering hidden risks, enforcing controls, and reducing security gaps.

2　Simplify Operations
Automated discovery, documentation, change detection, and remediation that saves hours per day and reducing manual effort at scale.

3　Drive Profitability and Retention
Improving client satisfaction and fuel growth through premium services packages,manual overhead reduction, billing reconciliation, and prove value with dashboards and defensible reports.

About Liongard

Liongard is redefining Attack Surface Management with an intelligent, AI-powered platform built for modern IT and security operations. Trusted by MSPs, MSSPs, and IT providers to protect over 70,000 end customers, Liongard delivers unified visibility across users, systems, networks, and cloud environments. With over 85 integrations, Liongard empowers teams to uncover hidden risks, enforce cybersecurity posture, and automate the actions that matter most. By combining deep asset intelligence with real-time insight and scalable remediation, Liongard fuels cyber resilience, operational efficiency, and sustainable growth.

liongard

The Lion Never Sleeps
Discover Risk. Enforce Controls. Automate Outcomes.

Discover Your Full Attack Surface

Continuously uncover identities, devices, and systems across every environment to eliminate blind spots and stay ahead of hidden risks.

Prioritize Risk with AI-Driven Scoring

Leverage AI to highlight the most critical gaps across environments, helping teams focus efforts where they matter most.

Reduce Vulnerability Before It's Exploited

Real-time alerts, continuous monitoring, and AI insights surface risks early, empowering teams to take action before issues escalate.

Remediate Issues Before They Escalate

Automate fixes and harden environments with consistent, scalable security enforcement that reduces manual effort and strengthens resilience.

Automate Documentation and Daily Tasks

Always-current system records and AI-powered search eliminate manual work, improve accuracy, and help teams operate more efficiently.

Enforce Compliance and Prove Control

Maintain defensible records and clear security evidence that simplify compliance, support audits, and build confidence.

Visualize Value for Clients

Turn complex IT and security data into clear, client-ready dashboards that communicate progress, highlight improvements, and reinforce partnership value.

Monetize Cyber Resilience Services

Expand your service offerings with proactive security, risk insights, and reporting that create new revenue opportunities and differentiate your business.
