

Relentless Intelligence Built On Unified Visibility.

Every decision, action, and report is only as strong as the data behind it. LiongardIQ delivers comprehensive **asset intelligence** by unifying data across every identity, device, system, and SaaS application. This depth of visibility makes everything else stronger: **AI that sees the full picture, automation that acts with precision, and reporting that proves value without question.** With LiongardIQ, IT teams drive efficiency, cyber resilience, and growth.

Relentless Intelligence: Built to scale,
built to secure, built for what's next.

Transforming IT & Security

IT environments are sprawling, risks hide in complexity, manual processes waste time, and proving value to clients has never been harder. LiongardIQ captures everything, unifies visibility, automates security, and turns operational insights into business advantage.

“

“Visibility is power—knowing when something changes can mean the difference between security and disaster. Liongard gives us that edge.”

Matthew Woehrle
IT Systems Administrator
Flagship Networks

About Liongard

Liongard is redefining asset intelligence with its AI-powered platform built for modern IT and security operations. Trusted by organizations worldwide to protect complex environments, Liongard delivers unified, real-time visibility across users, systems, networks, and SaaS Applications. Liongard empowers teams to uncover hidden risks, enforce controls, and automate critical security outcomes. By combining deep asset intelligence with AI-driven insights and scalable remediation, Liongard helps organizations reduce risk, strengthen cyber resilience, and operate more efficiently.

1

Simplify Operations

Automated discovery, documentation, change detection, and remediation that saves hours per day and reducing manual effort at scale.

2

Secure The Attack Surface

Cross-stack, continuous, AI-assisted visibility into every identity, device, and system, uncovering hidden risks, enforcing controls, and reducing security gaps.

3

Drive Profitability and Retention

Improving client satisfaction and fuel growth through premium services packages, manual overhead reduction, billing reconciliation, and prove value with dashboards and defensible reports.

The Lion Never Sleeps

Discover Risk. Enforce Controls. Automate Outcomes.

Unlock Unified Asset Intelligence

Continuously discover identities, devices, and systems across every environment to eliminate blind spots and stay ahead of hidden risks.

Prioritize Risk with AI-Driven Scoring

Leverage AI to highlight the most critical gaps across environments, helping teams focus efforts where they matter most.

Reduce Vulnerability Before They're Exploited

Real-time alerts, continuous monitoring, and AI insights surface risks early, empowering teams to take action before issues escalate.

Remediate Issues Before They Escalate

Automate fixes and harden environments with consistent, scalable security enforcement that reduces manual effort and strengthens resilience.

Accelerate Projects and Service Delivery

Always-current system records and AI-powered search eliminate manual work, improve accuracy, and help teams operate more efficiently.

Prove Cyber Resilience and Control

Maintain defensible records and clear security evidence that simplify compliance, support audits, and build confidence.

Visualize Value for Clients

Turn complex IT and security data into clear, client-ready dashboards that communicate progress, highlight improvements, and reinforce partnership value.

Monetize Cyber Resilience Services

Expand your service offerings with proactive security, risk insights, and reporting that create new revenue opportunities and differentiate your business.
