

Relentless Intelligence. Discover. Enforce. Automate.

LiongardIQ moves beyond the Liongard you once knew. Introducing AI-driven Attack Surface Management that's precise, vigilant, and built to dominate complexity. With real-time visibility, compliance-aligned insights, and guided remediation, LiongardIQ transforms fragmented visibility into proactive control by hunting down misconfigurations, eliminating blind spots, and empowering you to act before threats emerge. **This is not the Liongard you knew.**

Relentless Intelligence. Built to scale,
built to secure, built for what's next.

Real-Time Asset Discovery & Inventory

Eliminate blind spots and stay one step ahead with continuous, full-stack visibility. LiongardIQ uncovers every identity, device, service, and networked asset across your environments, now enhanced with **AI-Powered** search for sharper navigation and faster answers.

AI Asset Insights & Compliance Intelligence

Understand attack surface exposures in seconds with AI-generated summaries and compliance-aligned guidance. Get instant clarity on security posture misconfigurations to empower proactive, sellable services that drive smarter decisions.

Automated Remediation & Security Hardening

Act fast and lock down vulnerabilities with automated in-platform remediation. Resolve critical issues at scale, enforce best practices, and reduce vulnerability without the manual overhead.

Impact-Driven Visualization

Turn operational intelligence into clarity, influence, and action. Deliver interactive, shareable dashboards that highlight what matters most, transforming Liongard data into powerful, client-ready dashboards that reveal ROI, drive smarter decisions, and elevate the impact of every insight.

“

Visibility is power—knowing when something changes can mean the difference between security and disaster. Liongard gives us that edge.

Matthew Woehrle

IT Systems Administrator
Flagship Networks

About Liongard

Liongard is redefining Attack Surface Management with an intelligent, AI-powered platform built for modern IT and security operations. Trusted by MSPs, MSSPs, and IT providers to protect over 70,000 end customers, Liongard delivers unified visibility across users, systems, networks, and cloud environments. With over 85 integrations, Liongard empowers teams to uncover hidden risks, enforce cybersecurity posture, and automate the actions that matter most. By combining deep asset intelligence with real-time insight and scalable remediation, Liongard fuels cyber resilience, operational efficiency, and sustainable growth.

liongard

The Lion Never Sleeps.

Discover Risk. Enforce Controls. Automate Outcomes.

1. Asset Discovery & Inventory

Every asset. Fully visible.

Continuous discovery of identities, devices, endpoints, and networks, powered by unified inventory and real-time identity updates.

- ▶ Enables cyber asset visibility, onboarding, audits, and billing accuracy.

2. AI Asset Insights

Smart summaries. Actionable intelligence.

Automatically generate a clear, contextual summaries of each asset with CIS and NIST aligned insight-driven recommendations.

- ▶ Enables smart configuration management through AI-Generated asset intelligence.

3. Real-Time Alerts

Instant alerts. Continuous defense.

Know the moment change happens. Surface live events from Microsoft 365 with network intelligence and instant alerts, keeping your asset inventory and posture up-to-date in real time.

- ▶ Reduces risk and response time through automation.

4. Remediation & Hardening

Fix fast. Stay secure.

In-platform remediation and hardening automation for Microsoft 365 helping enhance security posture, best practices, and CAASM readiness at scale.

- ▶ Reduces manual effort and standardizes security.

5. AI-Powered Search

Find it fast. Act even faster.

Use intelligent search and AI-powered queries to instantly locate systems, identities, or misconfigurations. Navigate using hostnames, IPs, domains, or user attributes.

- ▶ Boosts efficiency and precision across teams.

6. Visual Insights

Insight you can see. Value you can share.

Deliver custom NOC-ready visuals and client-ready intelligence, turning operational data into smart, scalable visualization.

- ▶ Elevates QBRs, storytelling, and decision-making.

7. AI Query Companion

Prompt. Generate. Refine.

Turn prompts into suggested Liongard queries. AI gives you a head start on custom metrics, helping you save time and uncover insights faster, with full control to refine and perfect results.

- ▶ Accelerates custom reporting with AI-assisted query generation, no need to start from scratch.

▶ Ready to turn Intelligence into Impact?

See how LiongardIQ drives operational efficiency, improves security posture, and boosts profitability through automation and intelligence.
