

Visual Insights

Transform complex data into actionable intelligence.

Visual Insights takes Liongard's trusted data and turns it into interactive, easy-to-read dashboards so you can see the full picture across every client environment. No manual reporting or exports needed. Use pre-built dashboards for instant visibility or create custom views to track what matters most and turn insight into action.

See The Insights That Drive Action

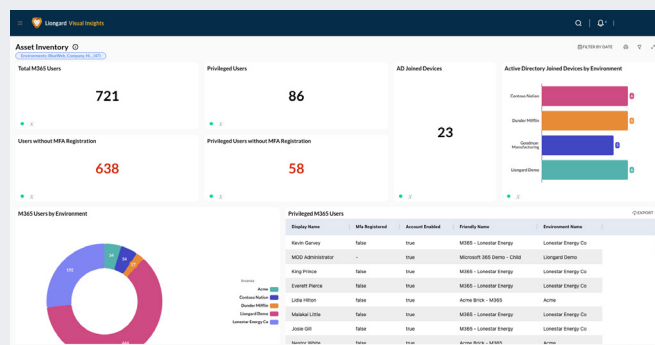

Visual Insights turns data into direction by helping teams spot risks, optimize performance, and prove value with clarity. It brings visibility to every role in your business and prove value to your clients.

For Account Managers & vCIO

Turn complex system data into simple, visual stories your clients actually understand. With Visual Insights, every meeting becomes a moment to show measurable progress.

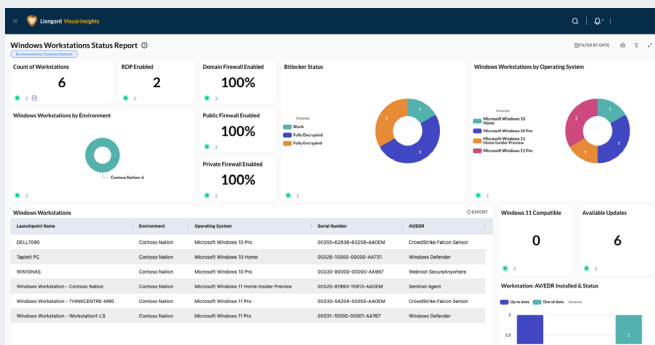

- ▶ Show how your proactive work prevents downtime
- ▶ Highlight automation-driven efficiencies
- ▶ Use visuals in Quarterly Business Reviews (QBRs) to reinforce trust and demonstrate ROI
- ▶ Spot upsell opportunities and uncover new project work backed by real, data-driven insights

For Security & Operations Teams

Identify gaps before they become risks: from missing MFA registrations to outdated systems or expired certificates.

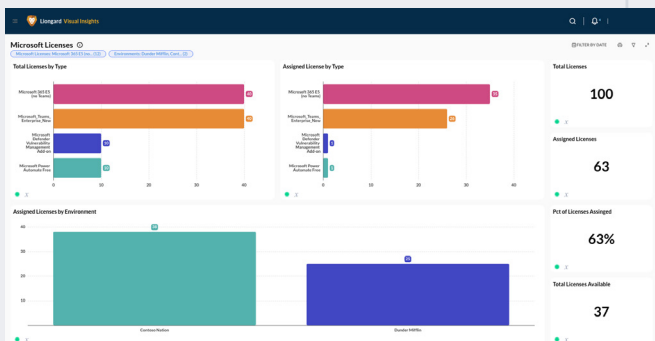

- ▶ Pinpoint vulnerabilities instantly
- ▶ Track security posture and compliance readiness
- ▶ Keep engineers and account managers aligned on client priorities

For Business Leaders

See the bigger picture across clients, systems, and services.

- ▶ Compare customer health at a glance
- ▶ Identify growth opportunities
- ▶ Confidently quantify value for executive reporting

Visual Insights Pro

Bring Your PSA data fully into view.

Unify your ConnectWise and Liongard data into a single, near real-time source of truth for complete visibility across service delivery and performance.

Visual Insights Pro delivers seven purpose-built dashboards that reveal performance, productivity, and customer experience, all of which are fully customizable and brandable for your client presentations.

The Impact of Visual Insights

Strengthens client relationships through clear, visual storytelling.

Transforms QBRs into strategic conversations.

Reveals upsell and project opportunities backed by data.

Turns automation into measurable business value.

► Build Dashboards That Work the Way You Do

Start with prebuilt dashboards or create your own. Whether you're reporting on patch compliance, endpoint security, or automation ROI, Visual Insights makes it visual, digestible, and client-ready.
